

THE MUSEUM NEEDS INVESTORS!

Running a successful museum takes more than the skills and dedication of its staff and volunteers. It takes money! **The Greater Vernon Museum and Archives is a non-profit organization that depends solely on operating grants, fundraising activities, and donations in order to survive.** Consequently, we need investors! Specific programs, departments, and projects at the museum are often in need of financial assistance. We invite you to invest in your museum and archives by indicating a department or a project at the museum you would like to donate funds to. We will see that your money is spent for that purpose. No amount is too small and **all money given is eligible for a tax receipt.**
